2.15pm	Imaging large vessel vasculitis with PET/MR - a Scotland-wide study <i>Dan Pugh, Specialist Trainee in Nephrology, NHS Lothian</i>
2.30pm	Workshop discussions: The aims of these workshops are to facilitate information sharing, discuss feedback from network visits and allow for delegates to network. Objectives and milestones have already been agreed as part of the commissioning process. Additional ideas have been suggested by teams as part of local visits. These fall into three key areas, as below. These workshops will also allow stakeholders to help prioritise the networks objectives for the next 3 - 5 years. <ul style="list-style-type: none"> • Research • Engagement, education and training • Clinical care (Pathways, guidelines and outcome data)
3.45pm	Feedback / Next steps <i>Nick Fluck / Michael Durkan, Programme Manager, NHS National Services Scotland</i>
4pm	Close
